LEAGUE OF WOMEN VOTERS

The League of Women Voters is open to all men and women citizens 18 years and older. It is a nonpartisan organization whose purpose is to promote political responsibility through informed and active participation of citizens in government and to act on selected governmental issues.

PRINCIPLES

The League of Women voters believes in representative government and in the individual liberties established in the Constitution of the United States.

The League of Women Voters believes that democratic government depends upon the informed and active participation of its citizens and requires that governmental bodies protect the citizen's right to know by giving adequate notice of proposed actions, holding open meetings, and making public records accessible.

The League of Women Voters believes that every citizen should be protected in his right to vote; that every persons should have access to free public education which provides equal opportunity for all; and that no persons or groups should suffer legal, economic or administrative discrimination.

The League of Women Voters believes that efficient and economical government requires competent personnel, the clear assignment of responsibility, adequate financing, and coordination among the different agencies and levels of government.

The League of Women Voters believes that responsible government should be responsive to the will of the people; that government should maintain an equitable and flexible system of taxation, promote the conservation and development of natural resources in the public interest, share in the solution of economic and social problems which affect the general welfare, promote a sound economy, and adopt domestic policies which facilitate the solution of international problems.

The League of Women Voters believes that cooperation with other nations is essential in the search for solutions to world problems, and that the development of international organizations and international law is imperative in the promotion of world peace.

Dues are \$35.00 per year per individual and \$52.50 (household) to join the League of Women Voters of the Calumet Area. Contact any officers or director for further information.

Hammond has approximately 888 certified teachers at present.

Certified teaching personnel must qualify for appropriate Indiana teaching licenses. Certified administrative personnel must qualify for appropriate Indiana administrative licenses as well as teaching licenses. Current minimum requirements call for attainment of a Masters degree and three years of teaching experience. Requirements for the highest administrative positions call for additional training.

In addition to the pay set forth on the teacher salary schedule, teachers are entitled to receive additional pay if their assignment requires additional weeks of service, if they sponsor or direct special activities, or if they hold coaching positions. Additional compensation may also be received for summer school and adult education assignments. Pay for these latter assignments is based on the individual teacher's placement on the salary schedule. A teacher with a higher degree and a greater number of years of service receives proportionately more than a teacher with a lesser degree and less service.
